Schedule by 4/19/19 for April Clinic and
4/26/19 for May clinic!

Come to the fairgrounds to meet a vet and get the 5
Core Vaccines and Flu/Rhino vaccine as
recommended by AAEP for horses. This is for 4-H
member's horse projects for fair only. You will have
approximately 10 minutes with the vet and have the
vet administer the vaccine. Vaccination serves to
minimize the risks of infection but cannot prevent
disease in all circumstances. The 4-H member needs
to practice good stable management for their horse(s).
4-H/Extension or Senior Fair Board are not liable for
any side effects of vaccinations.
